PROFILE

Analyst with a Master of Data Science (UBC) and a B.A. in Computer Science and Neuroscience, whose professional experience has been heavily client- and operations-facing: delivering analysis to client stakeholders, teaching, and supervising fast-moving service operations. Skilled at turning ambiguous problems into clear, actionable recommendations and presenting them to technical and non-technical audiences alike.

EDUCATION

University of British Columbia | Master of Data Science | MDS Scholarship | 90.6% Average *Sept 2025 – June 2026*

Skidmore College | B.A. Computer Science & Neuroscience | Davis Scholarship | GPA 3.86 | Magna Cum Laude *Aug 2020 – May 2024*

SELECTED PROJECT

Data Science Capstone: External Drivers of Sales & Leads | *Clarius Mobile Health, Vancouver, BC* *May 2026 – June 2026*

- **Engagement:** Informally led a 4-person team for Clarius, a point-of-care ultrasound manufacturer, testing whether external market signals explain demand across the US and Canada; scoped and delivered the project end-to-end, from proposal through partner hand-off.
- **Problem reframing:** Merged 4+ years of order data with 250+ external indicators; when no model reliably beat a seasonal baseline, diagnosed why and reframed the question to which external factors drive leads (12x more data) and how they differ by market, securing partner buy-in.
- **Analysis:** Reduced 252 candidate features to 29 interpretable predictors and cut 1-month forecast error (MAPE) to 26.3% from a 54.5% baseline.
- **Impact:** Routed each finding to the team able to act on it (Marketing, Sales, Analytics), presented to Clarius's VP of Marketing, and delivered a reproducible pipeline that was adopted into the toolset used by Clarius's sales teams.

CLIENT & ANALYTICS EXPERIENCE

Data Analyst Intern | *Snow Data Science, Houston, TX (Remote)* *June 2024 – Aug 2024*

- Worked on a team focused on a specialty food retailer client, turning business needs into analytical tasks and actionable reports.
- Segmented the client's members by purchasing behaviour, campaign response, and demographics on a three-week deadline; findings led the client to replace its single membership with a tiered program.
- Built Tableau KPI dashboards for B2B and B2C customers and presented them directly to client stakeholders.

Marketing Analyst Intern | *Japanz International, Manzini, Eswatini* *June 2023 – Aug 2023*

- Benchmarked competitor prices through in-person field research in a largely offline market and interviewed customers and stakeholders, identifying a competitor cost advantage and the company's real differentiators.
- Recommended competing on service rather than price; management adopted it, hiring three on-site mechanics and adding service revenue.
- Produced structured market analysis reports in Excel for internal stakeholders, synthesizing multiple data sources.

Sales Representative | *Japanz International, Manzini, Eswatini* *Jan 2020 – Jul 2020*

- Designed and ran a targeted outreach program that generated 21 vehicle sales through relationship-building and follow-up.

COMMUNICATION & OPERATIONS EXPERIENCE

Middle School Math Teacher | *Rockaway Park Middle School, New York, NY* *Sept 2024 – Aug 2025*

- Made complex concepts clear for classes of 25+ students, raising average scores by 20%; all but three passed the NY State Regents math exam.
- Communicated progress to parents and administrators and resolved issues proactively; used AI tools to streamline lesson planning and materials.

Direct Outreach Fundraiser | *Public Outreach (contracted by Amnesty International), Vancouver, BC* *Apr 2026 – Jun 2026*

- Turned complex humanitarian issues into persuasive messaging for diverse audiences; entered donor financial data accurately and discreetly.

Catering Supervisor | *Skidmore Catering, Saratoga Springs, NY* *Sept 2021 – May 2024*

- Supervised, scheduled, and trained staff on SOPs and safety, interviewed candidates, and coordinated event logistics with management.

Line Cook | *La Mano, North Vancouver, BC* *Jul 2026 – Present*

- Support a multi-channel food business (retail, wholesale, restaurant); daily inventory counts inform ordering and production planning.

PORTFOLIO PROJECTS

- IDA Credits & Grants (World Bank) (Tableau): Analyzed 10,504 loans in 137 countries ($555.2B) to surface regional lending concentration.
- iFood Customer & Campaign Analysis (Excel): Found 28% of customers drove 53% of revenue and diagnosed a 72% campaign rejection rate.
- Massachusetts Education Dashboard (Tableau): Analyzed 1,800+ schools; found weak links between spending/class size and outcomes.

SKILLS

Consulting & Communication: Problem scoping, stakeholder interviews, research synthesis, report writing, executive presentations
Analysis: Python, Excel, statistical modelling (GLMs, forecasting), hypothesis testing, customer segmentation, market research
Tools: Microsoft Office (Word, PowerPoint, Excel), Tableau, Git, Docker, Quarto, generative AI tools for workflow automation
Languages: English & Urdu (fluent); Spanish, French, Punjabi (intermediate)
